Frontend: React.js, Next.js, App Router, SSR/SSG, Tailwind CSS, shadcn/ui, Material UI
Backend & APIs: Node.js, Next.js API Routes, REST APIs, Supabase, FastAPI, Socket.io
Databases & Authentication: PostgreSQL, Redis, Supabase Auth, Row-Level Security (RLS)
State & Data: TanStack Query, Zustand, Redux, Axios, Zod
Integrations & Tools: Stripe, Persona KYC, GoHighLevel, Git, GitHub, Vercel, Vitest, Playwright

PROFESSIONAL EXPERIENCE

Tekxai — Software Developer
Oct 2024 – Present

- Develop production web applications across fintech, travel, real estate, and marketplace domains, translating business requirements into maintainable product features.
- Build reusable frontend architecture, multi-role interfaces, API integrations, and complex workflows using React.js, Next.js, and TypeScript.
- Contribute to application integrations and quality improvements involving payments, identity verification, real-time communication, accessibility, and automated testing.

Excellence Code Solution — Frontend Developer
Jan 2024 – Oct 2024

- Developed responsive React applications from Figma designs, integrated backend APIs, and built reusable components for maintainable user interfaces.
- Collaborated with team members to implement application features, manage client-side state, and deliver consistent user experiences.

SELECTED PROJECTS

SBRE Connect — Home Services Marketplace
sbreconnect.com

Next.js, TypeScript, Supabase, PostgreSQL, GoHighLevel, Stripe

- Contributing to a multi-role marketplace with homeowner, vendor, and staff workflows, including authentication, database policies, and service-request management.
- Working on vendor matching and lead-routing workflows based on service coverage, availability, and response timing, alongside CRM and payment integrations.

TripSlice — AI-Powered Travel Platform
tripslice.app

Next.js, Node.js, Redis, Socket.io

- Contributed to AI-assisted group travel planning, collaborative destination decisions, and itinerary generation.
- Worked on collaborative messaging and travel-product experiences supporting flight and hotel search and booking capabilities.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
Virtual University of Pakistan
