MUZAMMAL HUSSAIN

FRONTEND SOFTWARE ENGINEER

Lahore, Pakistan (PKT, UTC+5) | +92 311 0068507 | chmzml22@gmail.com
Portfolio: muzammil.dev | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Frontend Software Engineer with nearly 3 years of experience building production web applications across fintech, travel, real estate, and marketplaces. Specializes in React.js, Next.js, and TypeScript, with strengths in reusable architecture, API integrations, performance optimization, and accessible user experiences. Focused on building reliable, maintainable products and collaborating effectively with distributed teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js (App Router, SSR, SSG), Tailwind CSS, shadcn/ui, Material UI, Radix UI
State & Data: TanStack Query, Zustand, Redux, Context API, Axios, REST APIs, Zod
Performance & Quality: Code Splitting, Lazy Loading, Core Web Vitals, Technical SEO, WCAG 2.1 AA, Vitest, Playwright
Tools & Integrations: Git, GitHub, Vercel, Stripe, Persona KYC, Socket.io, ESLint, Prettier

PROFESSIONAL EXPERIENCE

Tekxai — Frontend Developer
Oct 2024 – Present

- Develop and maintain production web applications across fintech, travel, real estate, and marketplace domains using React.js, Next.js, and TypeScript.
- Build reusable UI components and maintainable feature-based architectures for complex, multi-role workflows.
- Integrate REST APIs, payments, identity verification, and real-time communication using tools such as TanStack Query, Stripe, Persona, and Socket.io.
- Improve accessibility and code quality through WCAG-aware interfaces, linting, and automated testing practices.

Excellence Code Solution — Frontend Developer
Jan 2024 – Oct 2024

- Built responsive, pixel-accurate React interfaces from Figma designs using reusable components and modern CSS frameworks.
- Integrated backend APIs, handled application state, and collaborated with team members to deliver maintainable features.

SELECTED PROJECTS

Abshaar — Fintech Accounting Platform
app.abshaar.com

React, TypeScript, Material UI, TanStack Query, Zustand

- Developed interfaces for a financial platform supporting eight user types, implementing role-based access and tailored dashboards for different workflows.
- Built features for transaction classification, bank reconciliation, cash-flow visibility, and reporting, focusing on reusable components and consistent data handling.

TripSlice — AI-Powered Travel Platform
stagapp.tripslice.com

Next.js, TypeScript, Zustand, Socket.io

- Contributed to an AI-assisted group travel experience that helps users discuss destinations, compare preferences, make decisions, and generate itinerary drafts.
- Worked on collaborative features and real-time communication integrations to support group planning, with additional travel-search and booking capabilities across the platform.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
Virtual University of Pakistan
